SAUVIGNON BLANC 2019

White Quality Wine, Styria - Austria

Vinted at our wine estates in Styria, the grapes for the Sauvignon Blanc can only be harvested by hand, owing to the steep hillsides. The viticulture in Styria is amongst Europe's finest, with its charming scenery, yet it also includes some of the hardest and most challenging terrain because most of the vineyards are planted on extremely steep inclines.

SAUVIGNON BLANC

Sauvignon Blanc has become more and more popular in Austria and continues to increase especially in Styria.

Sauvignon Blanc from Styria has achieved consistently worldwide awareness and popularity. It is a robust variety that requires leaf maintenance. Canopy management against sun burn and to protect the flavor and the fruity aromas.

VINIFICATION

Hand-picking, ca. 8 hours maceration, temperature-controlled fermentation and maturation in stainless-steel tanks.

TASTING NOTES

Tomato leaves and stinging nettles characterize this wine. This elegant, refreshing and lively wine has a unique and stimulating character. A firm entry leads to a moderately full-bodied palate with fine and balanced acidity.

FOOD SUGGESTIONS

Grilled dishes, seafood, fish, vegetable dishes.

GRAPE VARIETY	Sauvignon Blanc
